Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

1. Corporate Information

Frontera Energy Corporation (the “**Company**”) is an oil and gas company formed and existing under the laws of British Columbia, Canada, that is engaged in the exploration, development and production of crude oil and natural gas in South America. The Company’s common shares are listed and publicly traded on the Toronto Stock Exchange (“**TSX**”) under the trading symbol “**FEC**.” The Company’s head office is located at 333 Bay Street, Suite 1100, Toronto, Ontario, Canada, M5H 2R2, and its registered office is 1188 West Georgia Street, Suite 650, Vancouver, British Columbia, Canada, V6E 4A2.

These interim condensed consolidated financial statements of the Company, comprising those of the Company and its subsidiaries, were approved and authorized for issuance by the Audit Committee of the Board of Directors on July 31, 2019.

2. Basis of Preparation and Significant Accounting Policies

a. Statement of Compliance

These interim condensed consolidated financial statements for the three and six months ended June 30, 2019 and 2018 (the “**Interim Financial Statements**”), have been prepared in accordance with IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (“**IASB**”). The Interim Financial Statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company’s audited annual consolidated financial statements for the year ended December 31, 2018 (the “**2018 Annual Financial Statements**”). Certain amounts in the comparative interim condensed consolidated financial statements have been reclassified from the amounts previously presented to conform to the presentation of the current Interim Financial Statements. Additional details of these reclassifications are disclosed in “Note 2 - Basis of Preparation and Significant Accounting Policies” of the 2018 Annual Financial Statements.

b. Significant Accounting Policies

The accounting policies used in preparation of the Interim Financial Statements are consistent with those disclosed in the 2018 Annual Financial Statements, except as outlined below. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Changes in Accounting Policies and Disclosures

The Company applied the following new standards, amendments and interpretations effective from January 1, 2019.

Adoption of IFRS 16 Leases (“IFRS 16”)

IFRS 16 requires lessees to account for all leases, with certain exceptions, under a single on-balance sheet model, similar to finance leases under the previous effective standards IAS 17 *Leases* (“**IAS 17**”) and IFRIC 4 *Determining Whether an Arrangement Contains a Lease* (“**IFRIC 4**”). Under the previous guidance, lessees were required to determine if a lease was a finance or operating lease, based on specified criteria. The present value of finance leases was recognized on the Statements of Financial Position while operating leases were recognized in the Statement of Income (loss) when the expense was incurred. Under IFRS 16, lessees must recognize a lease liability and a right-of-use (“**ROU**”) asset for both finance and operating lease contracts.

The Company adopted the standard effective January 1, 2019, applying the modified retrospective transition approach and therefore the comparative period information has not been restated and continues to be reported under IAS 17 and IFRIC 4. The details of those accounting policies are described in “Note 3 - Significant Accounting Policies, Judgments, Estimates and Assumptions” of the 2018 Annual Financial Statements.

As a result of adopting the standard on January 1, 2019, the Company recognized a significant increase of \$64.1 million to both properties, plant and equipment, and lease liabilities on the Consolidated Statements of Financial Position. The net income (loss) in the Consolidated Statements Income (Loss) for the three and six months ended June 30, 2019, were \$0.3 million gain and \$0.4 million expense, respectively, due to an increase in depletion, depreciation and amortization (due to the ROU asset), an increase in lease finance expense (due to accretion of the lease liabilities), partially offset by corresponding decreases in oil and gas operating costs and general and administrative costs.

The Company applied the following optional expedients on the date of transition:

- ROU assets and liabilities for short-term leases (ending within 12 months) and leases of low value assets identified were not recognized on the Consolidated Statements of Financial Position.
- In the initial measurement upon transition, a single discount rate was applied to a portfolio of leases with similar characteristics.
- For certain leases, initial direct costs were excluded from the measurement of the ROU asset.

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

- Elected to retain the classification of contracts previously identified as leases under IAS 17 and IFRIC 4, and to use hindsight in determining the lease term.
- Relied upon any prior analysis of onerous contracts as an alternative to an impairment assessment for ROU assets under IAS 36 *Impairment of Assets*.

At the date of transition, the Company recognized ROU assets and lease liabilities primarily relating to take-or-pay arrangements in Colombia for power generators, storage facilities and corporate office leases. These leases were previously classified as operating leases under IAS 17.

Reconciliation of condensed consolidated statement of financial position as at January 1, 2019

Below is the effect of transition to IFRS 16 on our condensed consolidated statement of financial position as at January 1, 2019.

	Reported as at December 31, 2018	Effect of IFRS 16 Transition	Subsequent to Transition as at January 1, 2019
Assets			
Properties, plant and equipment	\$ 972,035	\$ 64,111	\$ 1,036,146
Liabilities			
Current portion of lease liabilities	7,151	12,623	19,774
Non-current portion of lease liabilities	20,428	51,488	71,916
Total lease liabilities	\$ 27,579	\$ 64,111	\$ 91,690

The ROU assets recognized on adoption were measured at an amount equal to the related lease liabilities. The lease liabilities were measured at the present value of remaining lease payments, discounted at the incremental borrowing rate of %10.0 at January 1, 2019. The incremental borrowing rate was determined based on the Company's own borrowings and bond yield data available at the date of transition.

The lease liabilities recognized on adoption of IFRS 16 as at January 1, 2019, are reconciled to the operating lease commitments as at December 31, 2018, as follows:

Operating lease commitments as at December 31, 2018	\$ 81,377
Less:	
Commitments relating to short-term leases	(6,783)
Commitments relating to leases of low-value assets	(3,692)
Gross lease liabilities	70,902
Weighted average incremental borrowing rate as at January 1, 2019	10.0%
Discounted operating lease liabilities as at January 1, 2019	64,111
Add:	
Obligations relating to leases previously classified as finance leases	27,579
Total lease liabilities as at January 1, 2019	\$ 91,690

IFRS 16 Summary of Accounting Policies

Right-of-use assets

The Company recognizes ROU assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). ROU assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of ROU assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized ROU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. ROU assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period in which the event or condition that triggers the payment occurs.

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

IFRIC 23 Uncertainty over Income Tax Treatments ("IFRIC 23")

In June 2017, the IASB issued IFRIC 23 to clarify accounting for uncertainties in income taxes. The interpretation provides guidance and clarifies the application of the recognition and measurement criteria in IAS 12 *Income Taxes* when there is uncertainty over income tax treatments. The interpretation is effective for annual periods beginning January 1, 2019, and the adoption of IFRIC 23 did not result in significant changes in the estimates and judgments applied regarding uncertainty over income tax treatments, and no adjustments were recognized upon transition in the Interim Financial Statements.

IAS 28 Investments in Associates and Joint Ventures ("IAS 28") Amendments

In October 2017, the IASB issued amendments to IAS 28 to clarify that a company applies IFRS 9 *Financial Instruments* to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture. Adoption of the amendments on January 1, 2019, did not have an impact in the Interim Financial Statements.

c. Significant Accounting Judgments, Estimates and Assumptions

In preparing the Interim Financial Statements, the significant judgments, estimates and assumptions in applying the Company's accounting policies and the key sources of estimation uncertainty were consistent with those disclosed in the 2018 Annual Financial Statements, except as described below for the adoption of IFRS 16.

- *Lease vs. non-lease components:* determining whether a contract includes both a lease (ROU asset) or a service component can be complex, particularly when stand-alone prices are not readily available. Significant judgment was required in the assessment of the ROU asset and lease liability relating to storage facilities where the contract included an "all-in" tariff. The Company's determination included separating amounts for the use of the storage tanks, other facility equipment and infrastructure (which may not be for the exclusive use of the Company), and services.
- *Incremental borrowing rate:* the incremental borrowing rates are based on judgments including the Company's own credit risk, economic environment, term, currency and risks specific to the underlying assets. The carrying balance of the right-of-use assets, lease liabilities, and the resulting depletion, depreciation and amortization and finance expenses, may differ due to changes in the market conditions and lease term.

3. Acquisition of CGX Energy Inc.

On March 13, 2019, the Company acquired control of CGX Energy Inc. ("**CGX**") through its participation in an equity rights offering. The Company's equity interest in CGX prior to the acquisition was 48.2% and was accounted for as an associate using the equity method. On March 13, 2019, the Company acquired 101,316,916 common shares of CGX, for cash consideration of \$19.0 million, under the rights offering. As a result of the share purchase, the Company's equity interest increased to 67.8%. CGX is a company listed on the TSX Venture Exchange and is involved in the exploration and development of petroleum and natural gas in Guyana.

This transaction was accounted for as a business combination through a step acquisition in accordance with IFRS 3. As a result, the Company recognized a gain of \$10.9 million in Other Income (loss) relating to the remeasurement of its previously held 48.2% equity interest to fair value immediately prior to the acquisition. As a result of the acquisition, pre-existing relationships between the Company and CGX were effectively settled, which resulted in an adjustment to the purchase price for the fair value of loans and advances totaling \$19.6 million. The Company elected to measure the non-controlling interest in CGX at fair value.

The total consideration paid and the preliminary estimate of fair value of the assets and liabilities acquired at the date of acquisition are outlined below. Due to the timing of the CGX acquisition, the identification and measurement of the assets and liabilities acquired, including any potential deferred taxes, is preliminary and subject to adjustment as additional information is obtained. Differences between these preliminary amounts and the final accounting may occur.

These Interim Financial Statements include the results of CGX for the period following the acquisition date of March 13, 2019. Since the date of acquisition, CGX contributed revenues and a net loss of \$Nil and \$1.2 million, respectively, to the financial results of the Company. If the acquisition of CGX occurred on January 1, 2019, the Company's results for the first half of 2019 would have included revenues and a net loss of \$Nil and \$2.5 million, respectively.

4. Segmented Information

The Company has two reportable segments: Colombia and Peru. The Company manages its operations to reflect differences in the regulatory environments and risk factors for each country. The "Canada & Other" segment includes the corporate office, Guyana assets and other non-operating entities that have been aggregated, as they do not generate revenues for the Company.

The following table provides the total balances as at June 30, 2019 and December 31, 2018:

	Colombia		Peru		Canada & Other ⁽¹⁾		Total

Impairment of E&E Assets

During the second quarter of 2019, the Company concluded that impairment indicators existed on certain exploration and evaluation assets in Colombia. As a result of negative exploratory test results, the Company decided to abandon further work on these assets and recorded an impairment charge of \$9.7 million (2018: \$2.0 million).

Other Impairment

During the second quarter of 2019, the Company recognized an impairment charge of \$4.2 million (2018: \$0.3 million) mainly related to low rotation or obsolete inventories.

Impairment of Investments in Associates

Bicentenario

During the second quarter of 2018, the Company recognized an impairment charge of \$107.7 million against its investment in Bicentenario. The charge was supported by an impairment test as at June 30, 2018, where the recoverable amount of the investment was calculated based on its value-in-use ("VIU") using a discounted dividends cash flow model.

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

Interamerican Energy Corp. ("Interamerican")

During the first quarter of 2018, the Company recognized an impairment charge of \$11.2 million, when it determined the carrying value of its investment in Interamerican was in excess of the fair value less costs to sell calculated with reference to a bid offer.

8. Income Taxes

Reconciliation between income tax (recovery) expense and the product of accounting profit multiplied by the Colombian statutory corporate income tax rate is provided below.

Income tax (recovery) expense	\$ (156,772)	11,725	\$ (135,086)	\$ 22,471

The Colombian statutory income tax rate was 33.0% as at June 30, 2019 (2018: 37.0%) and the presumptive income tax base is 1.5% in 2019 (2018: 3.5%). The Peruvian statutory income tax rate was 29.5% as at June 30, 2019 (2018: 29.5%). The Canadian statutory combined income tax rate was 26.5% as at June 30, 2019 (2018: 26.5%). The Peruvian income tax rate for Block Z-1 was 22.0% as at June 30, 2019 (2018: 22.0%).

Movement in Deferred Tax Balances	Amount
As at January 1, 2019	32,616
Recognized as deferred income tax expense	(32,616)
Recognized as deferred income tax recovery	176,629
As at June 30, 2019	176,629

The deferred tax asset booked at December 2018 was fully utilized by June 2019; therefore the Company reassessed its unrecognized deferred tax assets, as it has become probable that future profits will be available to recover the deductible temporary differences. As a result, a deferred income tax asset in the amount of \$176.6 million has been recorded in Colombia, offset by an income tax expense of \$32.6 million related to the utilization of the deferred tax asset.

The deferred income tax asset consists of deductible temporary differences, which arose primarily from undepreciated capital expenses related to oil and gas properties and operating losses. Projections of taxable profits were used to support the deferred tax recognition. Future projected income could be affected by oil prices and quantities of proved and probable reserves. If these factors or other circumstances change, the Company would reassess its ability to record any increase or decrease in its deferred income tax asset.

Transporte Incorporado S.A.S. - Assignment Agreement

On November 28, 2018, Transporte Incorporado S.A.S (“**Transporte Incorporado**”) informed the Company of its intention to exercise the unilateral right to terminate the assignment agreement with the Company. Effective April 1, 2019, as a result of the exercise, Transporte Incorporado’s transportation capacity rights related to the Oleoducto Central S.A. pipeline were transferred back to the Company. The Company paid \$48.5 million and settled receivables with Transporte Incorporado of \$20.1 million in exchange for the capacity rights, valuing \$68.6 million. The transportation rights are being amortized as of April 1, 2019, based on the straight-line method over five years.

With the termination of the assignment agreement, the Company is no longer required to pay the monthly premium of \$1.5 million from April 1, 2019, through March 31, 2024, to Transporte Incorporado. The effect of this transaction has reduced other transportation commitments of the Company in the aggregate amount of \$90.0 million.

The Company accounts for the above associates using the equity method as the criteria to exert significant influence was met given the significance of the Company's percentage holdings and ability to appoint directors to the investee's board of directors.

Oleoducto de los Llanos Orientales S.A. ("ODL")

During the three and six months ended June 30, 2019, the Company recognized gross dividends of \$Nil and \$26.9 million, respectively (2018: \$Nil and \$19.9 million, respectively), and received cash dividends of \$23.3 million and \$32.7 million respectively from ODL (2018: \$20.9 million and \$20.9 million, respectively). As at June 30, 2019, the company had dividends receivable of \$Nil.

Oleoducto Bicentenario de Colombia S.A.S. ("Bicentenario")

During the three and six months ended June 30, 2019, the Company recognized gross dividends of \$Nil and \$17.5 million, respectively (2018: \$Nil and \$28.6 million, respectively) from Bicentenario. As at June 30, 2019, the Company had dividends receivable of \$30.5 million, after withholding tax, included in Other Assets.

Infrastructure Ventures Inc. ("IVI")

During the three and six months ended June 30, 2019, the share of losses from IVI was \$3.9 million and \$3.9 million, respectively (2018: \$Nil and \$Nil, respectively). As the carrying amount of the equity investment in IVI was reduced to \$Nil at December 31, 2018, the Company has recorded its share of losses during 2019 as a reduction to other long-term interests that form part of its net investment in IVI. The Company's net investment includes an unsecured long-term receivable with a net carrying value of \$36.7 million after applying the share of losses. The net investment does not include trade receivables, trade payable or any long-term receivables for which adequate collateral exist.

The International Finance Corporation ("IFC") IVI Put Option

Pursuant to a put option agreement, the IFC have an option, exercisable at the discretion of the IFC, to require the Company to purchase their interest in IVI in the event that: (i) the Company violates certain representations and covenants (relating principally to criminal offenses, sanctionable practices, environmental compliance, insurance and the furnishing of information) under the transaction documents related to the IFC investment in IVI, or (ii) IVI has not conducted an initial public offering by December 1, 2019. If exercised as a result of (i) above, the put price is set at the amount that would give the IFC the greater of the market value of their shares or 15% annual return on their investment. If exercised as a result of (ii) above, the put price would be the current market price of IVI's common shares at the time of the exercise of the put option.

14. Leases

The Company leases various properties, power generation supply, port storage facilities, vehicles and other assets. These lease liabilities have an average discount rate of 10.36% (2018: 14.39%), and the maturity analysis (contractual undiscounted cash flows) is as follows:

15. Non-Controlling Interest

Pacific Midstream Ltd. ("PML") Bicentenario Put Option

Pursuant to an agreement among the shareholders of PML in 2014, PML had an option that was exercisable solely in the event that the Company terminated its transportation agreement with Bicentenario because the pipeline was non-operational for six consecutive months ("Bicentenario Put Option").

On September 11, 2018, the IFC, on behalf of PML, provided notice to the Company exercising the Bicentenario Put Option. On March 22, 2019, the Company increased its net ownership interest (after non-controlling interest) in Bicentenario from 26.4% to the current 43.0% through the acquisition of PML's ownership interest in Bicentenario in accordance with the Bicentenario Put Option for approximately \$84.8 million. The net cost of the acquisition was approximately \$34.0 million after the proceeds of the transaction were distributed by PML to its shareholders, including the Company.

Dividends paid to non-controlling interests

During the three and six months ended June 30, 2019, PML paid dividends to its shareholders of \$8.7 million and \$46.5 million, respectively, distributed to the IFC (2018: \$17.8 million and \$17.8 million, respectively).

16. Dividends

The following table provides a summary of the dividends declared and paid to equity holders of the Company in 2019.

19. Financial Instruments

a. Risks Associated with Financial Assets and Liabilities

The Company explores, develops, and produces oil and gas and enters into contracts to sell its oil and gas production. The Company also enters into supply agreements and purchases goods and services denominated in non-functional currencies, such as Colombian pesos for its Colombian-based activities. These activities expose the Company to market risk from changes in commodity prices, foreign exchange rates, interest rates and credit and liquidity risks that affect the Company's net income (loss) and the value of financial instruments it holds.

i) Credit Risk

Credit risk arises from the potential that the Company may incur a loss if a counterparty to a non-derivative financial asset fails to meet its obligations. Credit risk arising on risk management assets is not significant given the counterparties are large financial institutions, with strong credit ratings.

The Company actively limits the total exposure to individual client counterparties by maintaining a credit policy, which sets forth prepayment or letters of credit requirements for trade customers, to mitigate losses from non-collection of trade receivables.

The following table shows the maximum credit risk exposure of financial assets carried at amortized cost, presented at the gross carrying amounts, prior to expected credit loss ("ECL") allowances and other impairments:

As at	June 30, 2019	December 31, 2018
Trade receivables	\$ 106,472	\$ 64,364

⁽¹⁾ Corresponds to pre-existing loans and advances with CGX before its acquisition (Note 3).

ii) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The following are the maturities of non-derivative financial liabilities (based on calendar year and undiscounted) as at June 30, 2019:

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

Total	\$ 530,443	\$ 67,425	\$ 64,781	\$ 42,535	\$ 374,660	\$ 1,079,844

The Company has various guarantees in place in the normal course of business, supported by issued letters of credit. As at June 30, 2019, the Company had issued letters of credit and guarantees for exploration and operational commitments for a total of \$59.3 million (December 31, 2018: \$33.5 million). During the second quarter of 2019, the Company was granted two new credit lines for a total of \$22.2 million.

The Company is also in compliance with financial covenants under the Company's unsecured notes due 2023.

c. Fair Value of Financial Instruments

A detailed description of the Company's financial assets and financial liabilities and its associated risk management in respect thereof is provided in "Note 25 - Financial Instruments" of the 2018 Annual Financial Statements. There have been no significant changes in the business and economic circumstances and the related financial risks that affect the Company's valuation of financial assets and financial liabilities since December 31, 2018.

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

The fair value of the Company's cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued liabilities are approximated by the carrying value.

The following table summarizes the Company's remaining financial instruments that are carried or disclosed at fair value in accordance with the classification under the fair value hierarchy as at June 30, 2019 and December 31, 2018:

			Fair Value

	2018	(326,784)	—	(346,654)	—	(346,654)	

Level 3 financial assets measured at amortized cost

The Company uses level 3 inputs to measure the long-term loan receivable balances recognized, under Other Assets, with IVI and Puerto Bahia. The fair value of these balances was measured using a discounted cash flow methodology based on a projection of the future cash flows expected to be realized from the loan discounted at the contractual interest rates included in the loans. The significant unobservable inputs relate to the expected timing of repayment of principal and the expected interest cash flows under the loans.

20. Commitments and Contingencies

Commitments

The Company's commitments as at June 30, 2019, undiscounted and by calendar year, are presented below:

⁽²⁾ Excludes lease liabilities recognized on the Consolidated Statement of Financial Position upon the adoption of IFRS 16 (Note 2). Operating purchases and leases represent contractual commitment for service contracts and other short-term and low-value leases.

Puerto Bahia Equity Contribution Agreement ("ECA")

Notes to the Interim Condensed Consolidated Financial Statements

(Unaudited; in thousands of U.S.\$, unless otherwise stated)

On October 4, 2013, Pacinfra Holding Ltd. ("**Pacinfra**," a subsidiary of the Company), IVI, Sociedad Portuaria Puerto Bahia S.A. ("**Puerto Bahia**") (a subsidiary of IVI, Note 13) and Wilmington Trust, National Association (as Collateral and Administrative Agent), entered into an equity contribution agreement, pursuant to which Pacinfra and IVI agreed to jointly and severally cause equity contributions (via debt or equity) to Puerto Bahia up to the aggregate amount of \$130.0 million, when it is determined that there are certain deficiencies related to operation and maintenance of the port facility and Puerto Bahia's ability to make payments towards its bank debt obligations. During the first half of 2019, Pacinfra and IVI received deficiency notices, requiring both companies to fund a total amount of \$10.9 million (2018: \$30.5 million) to Puerto Bahia. On June 14, 2019, Pacinfra disbursed \$10.9 million to Puerto Bahia under a new loan agreement. As of June 30, 2019, the Company has disbursed via loan agreement a total of \$52.1 million to Puerto Bahia under the ECA.

Contingencies

The Company is involved in various claims and litigation arising in the normal course of business. Since the outcomes of these matters are uncertain, there can be no assurance that such matters will be resolved in the Company's favour. The outcome of adverse decisions in any pending or threatened proceedings related to these and other matters could have a material impact on the Company's financial position, results of operations or cash flows. No material changes have occurred regarding the matters disclosed in "Note 26 - Commitments and Contingencies" of the 2018 Annual Financial Statements.
